Credits

We'd like to thank the following:

- Our spellchecker, who did a great job of keeping our words in line, even when we didn't.
- The internet, for providing us with endless distractions and cute animal videos.
- The dictionary, for giving us a false sense of security that we know what all the words mean.
- The ghost of Shakespeare, for inspiring us to use big words and attempt to sound fancy.
- The universe, for allowing us to exist and write this report in the grand scheme of things.
- And finally, you, for reading this far.
